Currency	0.0%	0.0%

COMMENTS

- Price increases follow cost increases

BALANCE SHEET

Equity ratio increased

ASSETS

- Other non-current assets almost on level of Q4/2020; increase in fixed assets due to capex projects; decrease in deferred tax assets due to pension valuation.
- Increase in trade receivables follows improved business performance.

LIABILITIES

- Equity ratio increased from 19.4% to 22.4% following positive group net income for the period and lower pension valuations; dividends (7.8 M€) and share buyback (1 M€) decreased equity.
- Lower pension provision due to rising interest rates (0.9 %).
- Regular loan and lease repayments reduced non-current liabilities
- Increased business activities and EBT led to higher current liabilities, mainly affecting trade and income tax liabilities

CASHFLOW

Very strong net cashflow in 1-6/2021

COMMENTS

- Net cashflow more than doubled in comparison to previous year level – result from strong net income
- Investing cashflow above 1-6/2020 level mainly due to capital spending for NITRALZ® CAPEX project and for new construction of RTO-plant in 1-6/2021
- Cash outflow for financing activities (-15.7 M€) much higher than in previous year; no need for short term loan cash inflows (as in last year) based on strong net cashflow.
- Repayments for loans on prior year level. Dividend payments (7.8 M€) and share buyback (1.0 M€) strained financing cashflow.

IMPLEMENTING OPERATING TARGETS

Focus on key growth drivers, sustainability and pandemic management

OUTLOOK 2021

Significant upward adjustment of original forecast

SALES

EBITDA

COMMENTS

- Flexibility of NCN chain as the basis for demand-driven control of volume flows.
- Costs for raw materials, energy and logistics are expected to further increase, but no disruptions are planned.
- Exchange rates for USD sales 1.18
