

Aminoguanidine hydrochloride

CH₇N₄Cl

CAS: [1937-19-5]

Specified properties

Assay	min. 98%
Appearance	white to off-white crystals
pH (10% aqueous solution)	4.0 – 7.0
Ash	max. 0.1%
Melting point	min. 160°C
Water	max. 1%

Packaging: 10 kgs net in click-packs; 40 kgs net in 60 l PE-drums.

Storage: Material is hygroscopic. Keep in a cool and dry place. It is recommended to use material within 2 years. See also MSDS.

This information and all further technical advice is based on our present knowledge and experience. However, it implies no liability or other legal responsibility on our part, including with regard to existing third party intellectual property rights, especially patent rights. In particular, no warranty, whether express or implied, or guarantee of product properties in the legal sense is intended or implied. We reserve the right to make any changes according to technological progress or further developments. The customer is not released from the obligation to conduct careful inspection and testing of incoming goods. Performance of the product described herein should be verified by testing, which should be carried out only by qualified experts in the sole responsibility of a customer. Reference to trade names used by other companies is neither a recommendation, nor does it imply that similar products could not be used.
