About AlzChem Group

AlzChem is a vertically integrated manufacturer of various chemical products based on the NCN chain. AlzChem was founded in 1908 in Trostberg, Germany, to provide calcium cyanamide as a nitrogen fertilizer. Today, with three production sites in Germany and round 1,500 employees, AlzChem has a world wide leading position in selected markets, including nutritional feed additives, food supplements and agriculture.

WHAT IS CREATINE?

- Creatine is a natural molecule in the organism of humans and animals.
- Creatine is formed from amino acids in the body (arginine, glycine, methionine).
- Creatine is essential for energy supply in the cell.
- Muscle, heart, brain, sperm and immune cells need high levels of creatine.
- Creatine is a lost nutrient from animal proteins (degradation during rendering).

WHAT IS CREAMINO?

- Creamino is a unique creatine source for animal nutrition.
- Creamino elevates creatine stores in the body.
- Creamino spares arginine.
- Creamino supplies energy.
- Creamino benefits poultry and pig nutrition.

CREAMINO - ENERGY FOR HEALTHY GROWTH!
